Experience.

HashedIn by Deloitte | UX Designer III
Gurugram | Apr 2022 - Present

I've undertaken substantial UX research in my present employment, including heuristic evaluation, virtual design thinking workshops, and competitor analysis. I leveraged this information to generate high-fidelity mockups with micro-interactions and enhanced layouts from wireframes, thereby improving the user experience of our product.

Internshala | Product Designer
Gurugram | Nov 2020 - Mar 2022

We elevated Internshala's conversion rates as a team, by utilising modern design thinking and trends to produce an improved version of the platform. Concurrently, we created a strong design framework to provide a consistent and effective user experience.

CreativeByte Technologies | UI Designer
Bengaluru | Aug 2020 - Oct 2020

Designed low- and high-fidelity mockups of user interfaces, patterns, prototypes, and development-ready requirements for clients like wipro.

Fractal ink Design Studio | Intern
Mumbai | Jul 2020

Worked with senior designer to improve user experiences using design thinking, user research, & other UX approaches.

Ivypods | UX/UI Designer (Intern)
Gurugram | Nov 2019 - Apr 2020

Created an AI-powered app specifically for the task of flatmate matching. Used a unified user experience methodology to build a layout, design system, and prototypes.
